Point Count Map Template

Point Count Instructions

- Gather the following materials; Point Count Template (or blank sheet of paper), pencil, timer/ watch.
- 2. Fill out information at top of sheet.
- 3. Count off distance of yard or 25 steps.
- 4. Pick a spot to sit for 5 minutes and start timer.
- Make your own descriptive names up for the birds you see/ hear and record the ones you see in and out of your yard/ circle (abbreviated names make it easier).
- If birds move you can draw an arrow but don't write their name down a second time unless you see a new individual of the same species.
- After 5 minutes write down the number of each kind and information about their names in the Summary Table.
- 8. Make sure to write the Total Diversity of your habitat.

Diversity Summary Table		
Abbreviation	Descriptive Name	Common/ Scientific Nam
mber of Birds	Most Common Bird	Biodiversity Score
	Abbreviation	Abbreviation Descriptive Name
